Introduction

It is all-in-one solution for seamless connectivity and ergonomic tablet support. The stand offers adjustable height and angle for optimal ergonomic positioning, along with a 360° rotating base for flexible working positions. The docking station includes HDMI, USB-C PD, Audio combo jack, USB-A, and USB-C ports, as well as card readers for SD and MicroSD/TF cards. This docking station transforms your workspace and expands your connectivity options with ease.With a USB-C cable connection, it then provides HD video output, a 100W PD charging port, audio connectivity, power input, and dual USB 3.0 ports for high- speed data transfer, offering an array of features to enhance productivity and convenience.
Say goodbye to cluttered desks and tangled cables - our docking station consolidates all your essential connections into one sleek hub.

Say goodbye to discomfort and hello to efficiency with the USB-C Docking Station and Laptop Stand. Elevate your workspace today and experience the ultimate in connectivity, versatility, and performance. Perfect for home entertainment, office presentations, and classroom teaching.

Features

- Adjustable height and angle for optimal ergonomic positioning
- 360° rotating base for flexible working positions
- Supports USB-A and USB-C ports with 5Gbps transfer speed
- Multi-platform support: Windows, Chrome, Linux, and Android systems
- Plug-and-play functionality for hassle-free setup
- Heat conduction alloy and ventilation design prevent overheating
- Supports tablet and laptops from 7" to 15.6"
- Foldable and portable design for on-the-go convenience
- Silicone padding prevents scratches and secures devices

Ports and Connection

1.Host: Connect USB-C interface devices that comply with the USB 3.1 specification or higher.

2/3/4.USB-A3.0: Speed up to 5Gbps, 5V/0.9A@4.5W

5.USB-C3.0: Speed up to 5Gbps, 5V/0.9A@4.5W.

Data Sheet

Model	PCR100B
Warranty	1 year
Features Adjustable	yes
Join Types	Hinge & 360 pivot
4K Support	no
Industry Standard	USB3.0
Interface(s) Host Bus Type	USB Type C 3.1
Host Connector	USB Type C
Connector Type Rate	2xUSB A 3.0 (5Gbps)
	1xUSB-C 3.0 (5Gbps)
Performance Mount Design For	Phone/Tablet/Laptop 7" to 15.6"
Software OS Compatibility	Win7 or higher
	Chrome
	Linux
	Android
	iPad OS
	Mac OS
Environment Operating Temperature	-20°C to 70°C
Storage Temperature	-30°C to 120°C
Material	Aluminum Alloy(with silicone pads)
Color	Grey
Package Product Size	

Product Net Weight	
Package Size	269mmx235mmx60mm
Gross Weight	1.14Kgs
Carton Size	50x40x30cm
	12pcs/CTN (15.5kgs/CTN)
What's in the Box	USB-C Stand & Dock, USB-C to USB-C Cable, User's Manu
Notes	it holds up to 18lbs(>8kgs)

How to use it correctly

Step 1, Opening the Stand:

Place the stand flat on the table, lift the front end, then lift the rear end

① lift it up with force   ② lift it up with force

Step 2, Connecting the Laptop to the Dock:

Place the laptop onto the stand. Connect the dock's HOST port using the included USB-C to USB-C cable to the laptop's USB-C port (The USB-C port must be a full-feature port or USB3.1 or higher).

(After connection, all ports of the dock can start working normally.)

Step 3, Powering the Laptop:

Use the original laptop charger to connect to the laptop's charging port for power supply.

Frequently Asked Questions

Question 1: None of the docking station ports are working?

Answer 1: This may be due to an incorrect connection between the laptop and the docking station, To connect properly, use the included dual USB-C cable. Connect one end to the full-function USB-C port on your laptop. connect the other end to the HOST port on the docking station of the stand.

Question 2: Why do you need a laptop stand?

Answer 2: The use of a laptop stand can help reduce eye strain, particularly in the case of blue light exposure. Closely related to your sitting position as well, the distance between your eyes and the computer screen plays a significant role in how much you stress your vision while working..

Question 3: What are the main functions of USB-C ports?

Answer 3: The USB-C port on the stand supports data transfer and 4. 5W power supply.

Question 4: No sound from the headphones when plugged into the audio jack?

Answer 4: Check the audio settings to ensure the sound output is set to the headphones. Verify that the headphone jack is securely plugged in.

Question 5: USB devices (e.g., flash drive, mouse, keyboard) are not working?

Answer 5: Check if the devices are properly plugged in. Try reconnecting them or restarting your computer. For wireless keyboards and mice, ensure they have sufficient battery power.

Question 6: Why does It require g lot of force to open the stand?

Answer 6: The stand is designed with a higher torque setting, for the rotating axis. which requires more force to open. However, this design significantly enhances the stand' s stability and reliability, ensuring safety and preventing potential risks such as loosening or collapsing.

Question 7: Why does my laptop stand tip over?

Answer 7: This stand Is designed for laptops ranging from 7 to 15.6 Inches. When adjusting the height of the stand, ensure the center of gravity is balanced. If the center of gravity Is too off-center, the laptop may become unstable and tip over. Adjust the center of gravity properly, and the laptop will sit securely on the stand.

Question 8: How to contact our team?

Answer 8: You can contact us by email(sales@originneo.com) or whatsapp (+8619540244520).
